Professional Summary

Dedicated Sr. System Engineer, adept at collaborating with clients and team members to determine job scope and project milestones for our projects. Eager to bring three years of system engineering prowess to add value to the company.

Skills

- Cloud Computing and AWS
- Database: SQL Server, RDBMS, and MS-SQL
- Middleware: Tibco
- Monitoring Tools: SNOW,GSNOW and Cherwell
- Git and Gitlab
- OS: Windows and Linux
- Linux/UNIX
- Python
- Informatica

Work History Experience:

Company: Cognizant Technology and Solutions (CTS)

Dec 2016 – April 2020

Designation: Google SQL

Dec 2019 – April

Project: Google

Hyderabad

- Worked as a Google SQL DBA along with few other Python Activities.

Designation: Middleware-Linux Admin

Oct 2018 – Nov 2019

Project: Western Union (WU)

Hyderabad, Telangana

- Worked as both Middleware Linux Admin and as a Cloud Support in same project.
- As a Middleware-Linux admin, we were responsible for various Linux application deployments, Traffic movements, Tibco Admin-Hawk activities, performing Instance activities and troubleshooting other day to day activities.
- Managed Cloud infrastructure services and their configurations as required.

- Have deployed applications on various environment servers like PROD, UAT and QA with the help of Tibco as front-end and Linux as Back-end technology.
- Performed Application traffic movements of our critical digital applications between the data centers using F5 and Rundeck
- Ability to design and manage Cloud-based infrastructures to deliver the required performance, security and availability requirements.
- Experience in AWS services such as EC2, VPC, Storage services, IAM, RDS, No-SQL Databases, and Security etc.
- Used AWS platform for building the cloud infrastructure for the users as per their requirement like building VPC's, adding users with specific permissions, creating Databases, and managing storage volumes, creating VM instances and subnets as per their requested CIDR Range.
- Provided other cloud based solutions thereby improving the quality of the business growth.
- Proposed technical feasibility solutions for new designs of the environments.

Designation: Programmer Analyst Trainee

Jan 2017 - Sep 2018

Project: Union Bank of Switzerland (UBS)

Pune, Maharashtra

- Started my career as Programmer Analyst Trainee (PAT) in the Banking domain and UBS was my first project.
- Used to maintain the SQL databases and performed Linux activities for user management.
- Informatica for ETL operations and logs retrieval.
- Have carried out Incident Management and Change Management activities.
- Used Autosys for configuring the Job events and Net cool for Alert Monitoring.
- Provided Solutions with detailed RCA and incident analysis within the defined SLA.
- Delivered in-depth training to the newly joined employees about the process and overall architecture.
- Engaged with the Incident response team and lead the process of Documentation of events, resolving incidents and identified loopholes hence by improving the quality and efficiency of the process.

Education
